Subject: RE: Univar and US Moorings RCRA contact

Hi Eva,

The US Moorings site has been managed out of the Region 10 CERCLA shop in the past. The former EPA CERCLA RPM was Mark Ader. I believe Mark was following the CERCLA RI/FS process and not corrective action under RCRA. I mentioned that the administrative order EPA used was a RCRA order more as a background point of interest because it is unusual.

Subject: Univar and US Moorings RCRA contact

Matt and Alex-

As a followup to our meeting earlier this week, you stated that Univar in Portland Harbor would like to begin implementing some source control measures but was concerned about how it might interfere with its RCRA corrective actions. However, there is no RCRA project manager currently assigned to Univar. I talked to Jan Palumbo, a senior project manager in the RCRA Corrective Action and Permits Team. She said that Univar should contact Janis Hastings (whom I've cc'ed), the manager of the team (and also Associate Director of the office), to get a project manager assigned. As for US Moorings/Army Corps of Engineers, no one in RCRA seems to be familiar with the site. If you could provide more information (Is there another name? Was there a RCRA corrective action there?), perhaps another project manager could also look into it. But, in any case, Janis Hastings would be the one assigning a project manager to the site(s). Her phone is 206-553-1582. Thanks.

Eva
